BILL NO. HB408

## State Exemptions and Credits for Pollution Control Equipment, 2005<sup>FE</sup>

Many states encourage the purchase and use of pollution control equipment by allowing tax credits or exemptions for such purchases and use, as shown in the chart below. An entry of "N/A" indicates that the state does not levy such a tax; an entry of "None" indicates that the state does not provide a tax break.

Note that credits and exemptions for alternative fuel vehicles and recycling equipment are not included.
